Rechargeable 10 Watt Mini iPod Speakers

LED
On/Off switch

mini-USB input jack
LED
Connecting
- Connect a Mini USB plug into the input jack on each speaker
- Connect the stereo 3.5mm audio plug to the headphone jack of any audio device
- Slide the ON/OFF switch of each speaker to the ON position. The blue LED will illuminate.
- Press Play on your audio device and adjust its volume to the desired level.

Connect to Audio Source

Recharge by USB

← mini-USB → plug

larger USB plug

USB 2.0

Charging
- Connect the larger USB plug into a powered USB port on your computer. The LED will turn Magenta while charging, and back to blue when the batteries are fully charged.
- You can continue use of your speakers while they charge.

These speakers are powered by a rechargeable battery in each speaker. When the blue light dims, or you experience sound distortion, recharge the batteries.
